TITLE INDEX, VOLUME 21 (1993)

A broad BACEIS for improving thinking 401
A hypertext open learning system for writers 125
An engineering application for hypertext 199
Authors and information technology: new challenges in publishing 5
Cinewrite: an algorithm-sketch for writing novels cinematically, and two mysteries therein 155
Collaborative writing practices and writing support technologies 15
Competition in individualised CAI 365
Computer-managed instruction in Naval technical training 295
Computer support for the development of writing abilities 99
Conceptual models of programming environments: how learners use the glass box 473
Conditions for discovery through writing 4
Designing minimal computer manuals from scratch 85
Diffences in expert practice: a case from formative evaluation 451
Facilitating science learning by embedded explication 501
Generative aspects of the Computer Based Educational Software System (CBESS) 269
High speed text input to computer using handwriting 209
Hypertext adventures: computer-assisted teaching of technical report writing in Delft 139
Instructional conditions for using dynamic visual displays: a review 427
Introduction to Special Issue: Computers and writing – issues and implementations 1
Making connections: the logical structuring of hypertext documents 169
Military developments in instructional technology 223
Problems in achieving a global perspective of the text in computer-based writing 73
Reviewing and correcting specifications 183
Schoolchildren's revision tactics 109
Software visualisation as a pedagogical tool 335
The Advanced Instructional Design Advisor 239
The automation of curriculum development using the Authoring Instructional Materials (AIM) system 255
The Course Evaluation System 313
Tools and decision aids for training development in the U.S. Army 225
Two failures in computer-mediated text communication 29
